Efficient Solutions

At Pacific Continental Bank, we understand that our clients look for ways to make doing business more efficient. That's why we strive to offer our clients banking services and products that can help make the banking part of your business that much easier.

Pacific Continental now offers PayCard, a program provided by Elan Financial Services and designed with business clients in mind for the benefit of their employees. Users of our Online Business Banking and ACH/direct deposit can simply add the service to their existing direct deposit program.

Benefits for Employers:

- No need for printing and processing checks, reducing the costs associated with paper-based payroll;
- Save time and increase efficiency by decreasing the amount of time spent on payroll tasks;
- Expand your direct deposit program to all staff, including part-time and temporary employees;
- Eliminate outdated or lost paychecks while also decreasing the chance of check fraud.

For more information, including pricing, contact Pacific Continental's Business Banking Product Support Group.
